Intent

This policy is intended to meet the requirements of the Customer Service Standards included in the Integrated Accessibility Standards under the *Accessibility for Ontarians with Disabilities Act, 2005*. It applies to the provision of goods and services to the public or other third parties, not to the goods themselves.

All goods and services provided by Universal Fabricating Inc. shall follow the principles of dignity, independence, integration, and equal opportunity.

Definitions

Assistive Device – An assistive device is a technical aid, communication device, or other instrument that is used to maintain or improve the functional abilities of people with disabilities. Disability – The term disability as defined by the *Accessibility for Ontarians with Disabilities Act, 2005*, and the *Ontario Human Rights Code*, refers to:

Service Animal – an animal is a service animal for a person with a disability if:

1. the animal can be readily identified as one that is being used by the person for reasons relating to the person's disability, as a result of visual indicators such as the vest or harness worn by the animal; or
2. the person provides documentation from one of the following regulated health professionals confirming that the person requires the animal for reasons relating to the disability:
 - A member of the College of Audiologists and Speech-Language Pathologists of Ontario;
 - A member of the College of Chiropractors of Ontario;
 - A member of the College of Nurses of Ontario;

- [The Use of Assistive Devices](#)
- [The Use of Guide Dogs, Service Animals and Service Dogs](#)
- [The Use of Support Persons](#)

A. The Provision of Goods and Services to Persons with Disabilities

Universal Fabricating Inc. will make every reasonable effort to ensure that its policies, practices, and procedures are consistent with the principles of dignity, independence, integration, and equal opportunity by:

- Ensuring that all customers receive the same value and quality;
- Allowing customers with disabilities to do things in their own ways, at their own pace, when accessing goods and services as long as this does not present a safety risk;
- Using alternative methods when possible to ensure that customers with disabilities have access to the same services, in the same place and in a similar manner;
- Taking into account individual needs when providing goods and services; and
- Communicating in a manner that takes into account the customer's disability.

B. The Use of Assistive Devices

Customer's Own Assistive Device(s)

Policy: AODA Customer Service Policy	Created By: Laura Renaud, HR Manager
Issue Date: 06/23/2022	Revision No. and Date: Rev. 1 05/15/2024 RK

Persons with disabilities may use their own assistive devices as required when accessing goods or services provided by Universal Fabricating Inc.

In cases where the assistive device presents a safety concern or where accessibility might be an issue, other reasonable measures will be used to ensure the access of goods and services. For example, open flames and oxygen tanks cannot be near one another. Therefore, the accommodation of a customer with an oxygen tank may involve ensuring the customer is in a location that would be considered safe for both the customer and business. Or, where elevators are not present and where an individual requires assistive devices for the purposes of mobility, service will be provided in a location that meets the needs of the customer.

C. Guide Dogs, Service Animals and Service Dogs

A customer with a disability that is accompanied by guide dog, service animal or service dog will be allowed access to premises that are open to the public unless otherwise excluded by law. "No pet" policies do not apply to guide dogs, service animals, and/or service dogs.

Exclusion Guidelines

If a guide dog, service animal, or service dog is excluded by law (see applicable laws below) Universal Fabricating Inc. will offer alternative methods to enable the person with a disability to access goods and services, when possible (for example, securing the animal in a safe location and offering the guidance of an employee).

Applicable Laws

The *Health Protection and Promotion Act, Ontario Regulation 562 Section 60*, normally does not allow animals in places where food is manufactured, prepared, processed, handled, served, displayed, stored, sold, or offered for sale. It does allow guide dogs and service dogs to go into places where food is served, sold, or offered for sale. However, other types of service animals are not included in this exception.

Dog Owners' Liability Act, Ontario: If there is a conflict between a provision of this Act or of a regulation under this or any other Act relating to banned breeds (such as pitbulls) and a provision of a by-law passed by a municipality relating to these breeds, the provision that is more restrictive in relation to controls or bans on these breeds prevails.

Recognizing a Guide Dog, Service Dog and/or Service Animal:

If it is not readily apparent that the animal is being used by the customer for reasons relating to his or her disability, Universal Fabricating Inc. may request verification from the customer.

Care and Control of the Animal:

The customer who is accompanied by a guide dog, service dog, and/or service animal is responsible for maintaining care and control of the animal at all time.

Allergies

If a health and safety concern presents itself, for example, in the form of a severe allergy to the animal, Universal Fabricating Inc. will make all reasonable efforts to meet the needs of all individuals.

D. The Use of Support Persons

If a customer with a disability is accompanied by a support person, Universal Fabricating Inc. will ensure that both persons are allowed to enter the premises together and that the customer is not prevented from having access to the support person.

There may be times where seating and availability prevent the customer and support person from sitting beside each other. In these situations, Universal Fabricating Inc. will make every reasonable attempt to resolve the issue.

In situations where confidential information might be discussed, consent will be obtained from the customer, prior to any conversation where confidential information might be discussed.

E. Notice of Disruptions in Service

Service disruptions may occur due to reasons that may or may not be within the control or knowledge of Universal Fabricating Inc. In the event of any temporary disruptions to facilities or services that customers with disabilities rely on to access or use Universal Fabricating Inc. goods or services, reasonable efforts will be made to provide advance notice. In some circumstances such as in the situation of unplanned temporary disruptions, advanced notice may not be possible.

In the event that a notification needs to be posted, the following information will be included unless it is not readily available or known:

- Goods or services that are disrupted or unavailable;
- Reason for the disruption;
- Anticipated duration; and
- A description of alternative services or options.

- verbally notifying customers when they are making a reservation or appointment; or

Universal Fabricating Inc. shall provide customers with the opportunity to provide feedback on the service provided to customers with disabilities. Information about the feedback process will be readily available to all customers and notice of the process will be made available by written changes and training to the appropriate company policies and procedures.
